

## FLIR Launches Scion Thermal Monocular for Public Safety Professionals

January 22, 2019

*New Scion Professional Thermal Monocular Features Connectivity with FLIR TruWITNESS Platform*

WILSONVILLE, Ore.--(BUSINESS WIRE)--Jan. 22, 2019-- FLIR Systems, Inc. (NASDAQ: FLIR) announced today the launch of the FLIR Scion™ Professional Thermal Monocular (PTM) for public safety professionals. The Scion PTM is powered by FLIR's high-performance Boson® thermal core for greater image quality and features connectivity with FLIR TruWITNESS® to allow real-time encrypted thermal video streaming to provide professionals with greater situational awareness.

This press release features multimedia. View the full release here: <https://www.businesswire.com/news/home/20190122005289/en/>

The rugged Scion PTM features FLIR's most advanced thermal imaging core, which allows users to quickly detect objects with greater detail and offer clear vision in low visibility conditions. Available in a 60 hertz refresh rate, the Scion PTM features 2 gigabytes of internal storage and a microSD™ card slot to record both geotagged video or still images for later playback. Additional features include, picture-in-picture zoom, global positioning system (GPS) functionality, and both Bluetooth® and Wi-Fi capabilities to allow simple file transfer between devices.

When linked with the FLIR TruWITNESS wearable sensor platform built for city-level security and public safety operations, Scion PTM combines video, audio, and location data to allow organizations to stream thermal footage of any pursuit, evidence recovery, or search and rescue effort to the command center via wireless network.

"The FLIR Scion is FLIR's most feature rich commercial thermal handheld monocular available, bringing a new level of technology to public safety agencies," said

The new FLIR Scion Professional Thermal Monocular (PTM) for public safety professionals can stream live thermal video to provide greater situational awareness. (Photo: Business Wire)

Jim Cannon, President and CEO for FLIR Systems. "Additionally, the Scion PTM's integration with FLIR TruWITNESS makes this an invaluable tool that will help provide public safety professionals with more information for real-time decision making in the field."

The Scion PTM, which replaces FLIR's H series monocular thermal cameras, is available now in the United States starting at \$3,295 MSRP through established FLIR dealers. For more information, visit [www.flir.com/scion](http://www.flir.com/scion).

### **About FLIR Systems**

*Founded in 1978 and headquartered in Wilsonville, Oregon, FLIR Systems is a world-leading maker of sensor systems that enhance perception and heighten awareness, helping to save lives, improve productivity, and protect the environment. Through its nearly 3,500 employees, FLIR's vision is to be "The World's Sixth Sense" by leveraging thermal imaging and adjacent technologies to provide innovative, intelligent solutions for security and surveillance, environmental and condition monitoring, outdoor recreation, machine vision, navigation, and advanced threat detection.
