Lewis, et al.* The *Sommers* complaint alleged that certain stock options granted by the Company were dated improperly, purported to assert claims under various common law theories and under the federal securities laws and alleged the Company is entitled to damages from various individual defendants on a variety of legal theories. On June 16, 2008, the court dismissed the complaint, but granted plaintiff leave to amend. On July 31, 2008, plaintiff filed an amended complaint asserting materially the same claims. The Company intends to vigorously defend itself in this matter and is unable to estimate the amount or range of potential loss, if any, which might result if the outcome in this matter is unfavorable.

The Company and its subsidiary, Indigo Systems Corporation, (together, the "FLIR Parties") have been named in a lawsuit filed by Raytheon Company on March 2, 2007 in the United States District Court for the Eastern District of Texas. The complaint asserts claims for tortious interference, patent infringement, trade secret misappropriation, and unfair competition. The FLIR Parties filed an amended answer and counterclaims on or about June 22, 2007, in which they denied all material allegations. As of June 30, 2008, the Company intends to vigorously defend itself in this matter and is unable to estimate the amount or range of potential loss, if any, which might result if the outcome in this matter is unfavorable.

**Note 16. Income Taxes**

As of June 30, 2008, the Company had approximately \$4.9 million of net unrecognized tax benefits of which all \$4.9 million would affect the Company's effective tax rate if recognized.

The Company classifies interest and penalties related to uncertain tax positions as income tax expense. As of June 30, 2008, the Company had approximately \$345,000 of accrued interest related to uncertain tax positions.

**Note 18. Business Acquisitions**

Allocation of the purchase price to goodwill and identifiable intangible assets is subject to the final determination of the purchase price and the valuation of the assets acquired and liabilities assumed. The excess purchase price of approximately \$63.4 million has been reported in Other Assets as of June 30, 2008.

On April 8, 2008, the Company acquired the stock of Ifara Tecnologias, S.L. Allocation of the purchase price to goodwill and identifiable intangible assets is subject to the final determination of the purchase price and the valuation of the assets acquired and liabilities assumed. ### **Results of Operations**

**Revenue.** Revenue for the three months ended June 30, 2008 increased by 41.6 percent, from \$184.3 million in the second quarter of 2007 to \$261.0 million in the second quarter of 2008. Revenue for the six months ended June 30, 2008 increased 44.0 percent, from \$345.7 million in the first six months of 2007 to \$497.9 million in the first six months of 2008.

Government Systems revenue increased \$41.6 million, or 46.2 percent, from \$90.0 million in the second quarter of 2007 to \$131.6 million in the second quarter of 2008. Government Systems revenue for the six months ended June 30, 2008 increased \$74.1 million, or 43.3 percent, from \$171.2 million in the first six months of 2007 to \$245.3 million in the first six months of 2008. The increase in Government Systems revenue in the second quarter and the first six months of 2008 compared to the same periods in 2007 was primarily due to an increase in unit sales across most of our product lines.

Thermography revenue increased \$23.2 million, or 40.4 percent, from \$57.4 million in the second quarter of 2007 to \$80.6 million in the second quarter of 2008. Thermography revenue for the six months ended June 30, 2008 increased \$48.7 million, or 43.8 percent, from \$111.4 million in the first six months of 2007 to \$160.1 million in the first six months of 2008. Excluding revenue from Extech Instruments, acquired in the fourth quarter of 2007 and Cedip Infrared Systems, acquired during the first quarter of 2008, Thermography revenue increased 15.9 percent and 16.6 percent in the three and six month periods ended June 30, 2008, respectively, over the same periods of 2007. The increase in both the three and six month periods was primarily due to increased unit sales in our T-Series™, SC-Series™ and GasFindIR® product lines, slightly offset by decreased unit sales of our P-Series™ and E-Series™ product lines.

Commercial Vision Systems revenue increased \$11.9 million, or 32.2 percent, from \$36.9 million in the second quarter of 2007 to \$48.8 million in the second quarter of 2008. Commercial Vision Systems revenue for the six months ended June 30, 2008 increased \$29.4 million, or 46.6 percent, from \$63.1 million in the first six months of 2007 to \$92.5 million in the first six months of 2008. The increase in Commercial Vision Systems revenue in the second quarter and first six months of 2008 compared to the same periods in 2007 was also due to increased unit sales across most of our product lines.

The timing of deliveries against large contracts, especially for our Government Systems and Commercial Vision Systems products, can give rise to quarter-to-quarter and year-over-year fluctuations in the mix of revenue. Consequently, year-over-year comparisons for any given quarter may not be indicative of comparisons using longer time periods. While we currently expect an overall increase in total annual revenue for 2008 of between 35 percent and 41 percent, the mix of revenue between our three business segments and within certain product categories in our business segments will vary from quarter to quarter.

## [Table of Contents](#)

As a percentage of revenue, international sales were 40.5 percent and 36.9 percent for the quarters ended June 30, 2008 and 2007, respectively, and 38.8 percent and 39.2 percent for the six months ended June 30, 2008 and 2007, respectively. While the percentage of revenue from international sales will continue to fluctuate from quarter to quarter partially due to the timing of shipments under international and domestic government contracts, management anticipates that revenue from international sales as a percentage of total revenue will continue to comprise a significant percentage of revenue.

At June 30, 2008, we had an order backlog of \$572 million. Backlog in the Government Systems, Thermography and Commercial Vision Systems divisions was \$464 million, \$22 million and \$86 million, respectively. Backlog is defined as orders received for products or services for which a sales agreement is in place and delivery is expected within twelve months.

*Gross profit.* Gross profit for the quarter ended June 30, 2008 was \$146.6 million compared to \$99.1 million for the same quarter last year. Gross profit for the six months ended June 30, 2008 was \$277.4 million compared to \$189.0 million for the same period of 2007. As a percentage of revenue, gross profit increased from 53.8 percent in the second quarter of 2007 to 56.2 percent in the second quarter of 2008, and from 54.7 percent in the first six months of 2007 to 55.7 percent in the first six months of 2008. The increase in gross profit as a percentage of revenue for both the three and six month periods in 2008 was primarily due to the cost efficiencies gained through a higher volume of production by Government Systems, slightly offset by the lower gross profit recognized at Extech.

*Research and development expenses.* Research and development expenses for the second quarter of 2008 totaled \$23.5 million, compared to \$17.9 million in the second quarter of 2007. Research and development expenses for the first six months of 2008 and 2007 were \$46.7 million and \$35.9 million, respectively. The increase in research and development expenses was due to the continued investment in new product development in all business segments to enable future growth. As a percentage of revenue, research and development expenses were 9.0 percent and 9.7 percent for the three months ended June 30, 2008 and 2007, respectively, and 9.4 percent and 10.4 percent for the six months ended June 30, 2008 and 2007, respectively.

*Selling, general and administrative expenses.* Selling, general and administrative expenses were \$58.4 million for the quarter ended June 30, 2008, compared to \$40.1 million for the quarter ended June 30, 2007. Selling, general and administrative expenses for the first six months of 2008 and 2007 were \$111.0 million and \$75.9 million, respectively. The increase in selling, general and administrative expenses was due to the continued growth in the business, including costs associated with new product launches. Selling, general and administrative expenses as a percentage of revenue were 22.4 percent and 21.7 percent for the quarters ended June 30, 2008 and 2007, respectively, and 22.3 percent and 22.0 percent for the six months ended June 30, 2008 and 2007, respectively.

*Interest expense.* Interest expense for the second quarter and first six months of 2008 was \$2.3 million and \$4.8 million, respectively, compared to \$2.6 million and \$5.3 million for the same periods of 2007. Interest expense is primarily attributable to the accrual of interest on the convertible notes that were issued in June 2003 and the amortization of costs related to the issuance of the notes.

*Other income/expense.* For the quarter and six months ended June 30, 2008, we recorded other income of \$3.6 million and \$3.7 million, respectively, compared to other income of \$1.2 million and \$3.6 million for the same periods of 2007. Other income in both 2008 and 2007 primarily consists of interest income earned on short-term investments and foreign currency gains and losses.

*Income taxes.* The income tax provision of \$35.9 million for the six months ended June 30, 2008, represents an effective tax rate of 30.2 percent. We expect the annual effective tax rate for the full year of 2008 to be approximately 30 percent to 32 percent. The effective tax rate is lower than the US Federal tax rate of 35 percent because of foreign tax rates, the effect of current foreign tax credits and state tax credits.

## **Liquidity and Capital Resources**

At June 30, 2008, we had cash and cash equivalents on hand of \$177.0 million compared to \$203.7 million at December 31, 2007. The decrease in cash and cash equivalents was primarily due to the acquisition of Cedip and Ifara, repayment of borrowings under our Credit Agreement (“Credit Agreement”) with Bank of America, N.A., Union Bank of California, N.A., U.S. Bank National Association and other Lenders, and the purchase of shares of our outstanding common stock, offset by cash provided from operations and proceeds from the exercise of stock options.

## [Table of Contents](#)

Accounts receivable totaled \$230.4 million at June 30, 2008 compared to \$203.4 million at December 31, 2007. The increase was primarily due to higher collections in the fourth quarter of 2007 and higher revenue in the second quarter of 2008 compared to the fourth quarter of 2007.

At June 30, 2008, we had inventories of \$213.8 million compared to \$179.4 million at December 31, 2007. The increase was primarily due to purchases for anticipated future shipments and the acquisition of inventory of Cedip.

Prepaid expenses and other current assets at June 30, 2008 were \$86.3 million compared to \$58.1 million at December 31, 2007. The increase was primarily due to estimated tax payments made to US and foreign jurisdictions, tax benefits from stock option exercises and vendor advances.

Other assets increased from \$16.7 million at December 31, 2007 to \$88.5 million at June 30, 2008. The increase is primarily attributable to the portion of the purchase price of Cedip and Ifara in excess of the net assets acquired, which has not been allocated to goodwill and intangible assets, pending the final determination of the purchase price and valuation of the tangible net assets.

Accounts payable increased from \$54.0 million at December 31, 2007 to \$67.3 million at June 30, 2008. The increase primarily related to the increase in inventories and overall Company growth.

Cash used in investing activities of \$102.6 million for the six months ended June 30, 2008 include the acquisitions of Cedip and Ifara for \$79.2 million, net of cash acquired from Cedip and Ifara, capital expenditures of \$16.1 million and other investments of \$7.3 million. Cash used in investing activities for the six months ended June 30, 2007, principally related to capital expenditures, totaled \$21.8 million.

On October 6, 2006, we entered into the Credit Agreement, which provides for a \$300 million, five-year revolving line of credit. We have the right, subject to certain conditions including approval of additional commitments by qualified lenders, to increase the line of credit by an additional \$150 million until October 6, 2011. The Credit Agreement includes a \$100 million sublimit multicurrency option, permitting us and certain of our designated subsidiaries to borrow in Euro, Kronor, Sterling and other agreed upon currencies. Under the Credit Agreement, borrowings will bear interest based upon the prime lending rate of the Bank of America or Eurodollar rates with a provision for a spread over Eurodollar rates based upon the Company's leverage ratio. The Eurodollar interest rate was 3.75 percent and the prime lending rate was 5.00 percent at June 30, 2008. These rates were 5.65 percent and 7.25 percent, respectively, at December 31, 2007. The Credit Agreement requires us to pay a commitment fee on the amount of unused credit at a rate, based on our leverage ratio, which ranges from 0.175 percent to 0.325 percent. At June 30, 2008 and December 31, 2007, the commitment fee rate was 0.175 percent. The Credit Agreement contains five financial covenants that require the maintenance of certain leverage ratios, in addition to minimum levels of EBITDA and consolidated net worth, a maximum level of capital expenditures and, commencing December 31, 2009, a minimum liquidity of cash and availability under the Credit Agreement. The Credit Agreement is collateralized by substantially all assets of the Company. At June 30, 2008, we had no borrowings outstanding under the Credit Agreement and were in compliance with all of its financial covenants. At December 31, 2007, we had \$19.0 million outstanding under the Credit Agreement. We had \$13.3 million and \$6.6 million of letters of credit outstanding under the Credit Agreement at June 30, 2008 and December 31, 2007, respectively, which reduces the total available credit thereunder.

Our Sweden subsidiary has a 30 million Swedish Kronor (approximately \$5.0 million) line of credit with an interest rate at 5.15 percent at June 30, 2008. At June 30, 2008, the Company had no amounts outstanding on this line of credit. The 30 million Swedish Kronor line of credit is secured primarily by accounts receivable and inventories of the Sweden subsidiary and is subject to automatic renewal on an annual basis.

In June 2003, we issued \$210 million of 3.0 percent senior convertible notes due in 2023 in a private offering pursuant to Rule 144A under the Securities Act of 1933, as amended. The net proceeds from the issuance were approximately \$203.9 million. Issuance costs are being amortized over a period of seven years. Interest is payable semiannually on June 1 and December 1 of each year. The holders of the notes may convert all or some of their notes into shares of our common stock at a conversion rate of 90.1224 shares per \$1,000 principal amount of notes prior to the maturity date in certain circumstances. We may redeem for cash all or part of the notes on or after June 8, 2010.

---

## [Table of Contents](#)

The convertible notes are eligible for conversion at the option of the note holders. As of June 30, 2008, notes with a value of \$4,000 have been converted into 360 shares of the Company's common stock. We do not currently anticipate additional conversions of these notes before 2010.

We believe that our existing cash combined with the cash we anticipate to generate from operating activities and our available credit facilities and financing available from other sources will be sufficient to meet our cash requirements for the foreseeable future. We do not have any significant capital commitments for the current year nor are we aware of any significant events or conditions that are likely to have a material impact on our liquidity.

### **New Accounting Pronouncements**

In May 2008, the Financial Accounting Standards Board ("FASB") issued FASB Staff Position APB 14-1, "Accounting for Convertible Debt Instruments That May be Settled in Cash upon Conversion (Including Partial Cash Settlement)" ("FSP APB 14-1"). FSP APB 14-1 specifies that issuers of convertible debt instruments that may be settled in cash should separately account for the liability and equity components in a manner that will reflect the entity's nonconvertible debt borrowing rate when interest cost is recognized in subsequent periods. FSP APB 14-1 is effective for financial statements issued for fiscal years beginning after December 15, 2008 and we are currently assessing the impact this pronouncement will have on our financial statements.

### **Critical Accounting Policies and Estimates**

The Company reaffirms the critical accounting policies and our use of estimates as reported in our Form 10-K for the year ended December 31, 2007. As described in Note 2 to the Consolidated Financial Statements, the determination of fair value for stock-based compensation awards requires the use of management's estimates and judgments.

### **Contractual Obligations**

Other than the repayment of the \$19.0 million outstanding under the Credit Agreement during the quarter ended March 31, 2008, there have been no material changes to our contractual obligations outside the ordinary course of our business since December 31, 2007.
