FLIR Systems Receives Delivery Order Totaling \$54.2 Million from the U.S. Department of Defense for DR-SKO Systems

WILSONVILLE, OR -- (Marketwired) -- 03/07/17 -- FLIR Systems, Inc. (NASDAQ: FLIR) announced today that it has received a delivery order for 50 U.S. Army Chemical, Biological, Radiological, and Nuclear Dismounted Reconnaissance Sets, Kits, and Outfits (CBRN DR-SKO) systems. The delivery order is under a five-year indefinite delivery, indefinite quantity (IDIQ) contract from the U.S. Department of Defense, in support of the Joint Program Executive Office for Chemical and Biological Defense (JPEO-CBD) DR-SKO Program of Record. The order is valued at \$54.2 million, with deliveries extending through the second quarter of 2018.

The CBRN DR-SKO system is a set of mission specific kits that characterize and provide full spectrum CBRN dismounted reconnaissance capability utilized by the U.S. Military Joint Services, including units within the Army, Navy, Air Force, Marines, and National Guard Weapons of Mass Destruction-Civil Support Teams. The program has been in development since 2008 with FLIR Systems, Inc. as the prime contractor.

"We are honored to continue providing our turnkey DR-SKO solution that addresses the current and emerging threats by equipping U.S. soldiers with the best-in-class technology for their mission," said Andy Teich, President and CEO of FLIR. "This delivery solidifies our continued support to provide innovative, mission-critical solutions to keep our country safe and maintain our stance as a leader in the CBRN market."

Since the CBRN DR-SKO IDIQ was awarded in December 2014, over 100 systems have been delivered to the U.S. Department of Defense, with production being performed out of FLIR's facility in Elkridge, Md.

About FLIR Systems

FLIR Systems, Inc. is a world leader in the design, manufacture, and marketing of sensor systems that enhance perception and awareness. FLIR's advanced thermal imaging and threat detection systems are used for a wide variety of imaging, thermography, and security applications, including airborne and ground-based surveillance, condition monitoring, research and development, manufacturing process control, search and rescue, drug interdiction, navigation, transportation safety, border and maritime patrol, environmental monitoring, and chemical, biological, radiological, nuclear, and explosives (CBRNE) detection. For more information, go to FLIR's web site at www.FLIR.com.

Forward-Looking Statements

The statements in this release by Andy Teich and the other statements in this release about the contract and order described above are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements are based on current expectations, estimates, and projections about FLIR's business based, in part, on assumptions made by management. These statements are not guarantees of future performance and involve risks and uncertainties that are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements due to numerous factors, including the following: the ability to manufacture and deliver the systems referenced in this release, changes in pricing of FLIR's products, changing demand for FLIR's products, product mix, the impact of competitive products and pricing, constraints on supplies of critical components, excess or shortage of production capacity, the ability of FLIR to manufacture and ship products in a timely manner, FLIR's continuing compliance with U.S. export control laws and regulations, and other risks discussed from time to time in FLIR's Securities and Exchange Commission filings and reports. In addition, such statements could be affected by general industry and market conditions and growth rates, and general domestic and international economic conditions. Such forward-looking statements speak only as of the date on which they are made and FLIR does not undertake any obligation to update any forward-looking statement to reflect events or circumstances after the date of this release, or for changes made to this document by wire services or Internet service providers.
